

Second Quarter Report, 2002 - Juvenile Hall Data

Gender Distribution in Juvenile Halls

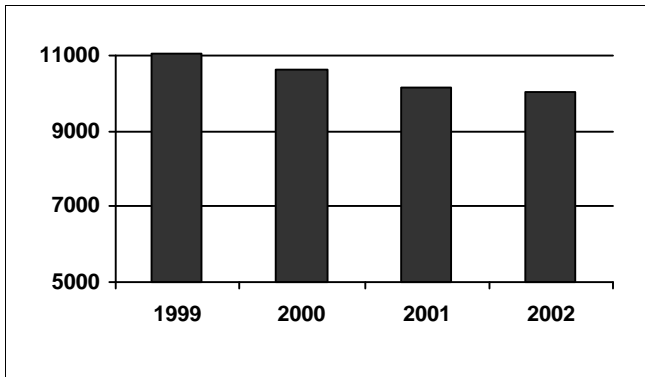

The percentage of males in Juvenile Halls was the same for the 1st and 2nd Quarters of 2002 at 82%. Since the inception of the Juvenile Detention Survey, the percentage of females in Juvenile Halls, and in other detention facilities as well, has been increasing slightly. This variable will remain under scrutiny because an increase in the numbers and percentage of females in juvenile detention would have a significant effect on programming, classification and facility costs.

Summary of Males in Juvenile Halls				
1999	2000	2001		
85%	84%	83%		

2002 Summary of Males in Juvenile Hall				
Q1	Q2			Average
82%	82%			82%

Average Number of Juveniles Booked per Month

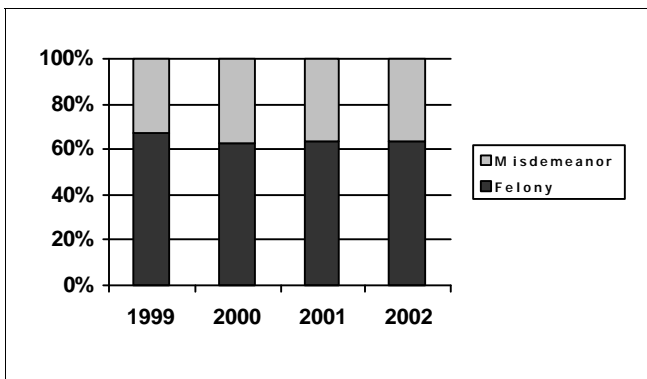

Since 1999, the average number of Bookings per month has been declining. The average number so far for 2002 (10,058 per month), is about a thousand per month less than in 1999. The average might continue to decline; however, the results for adult bookings suggest that booking numbers go through cycles of increases and decreases that last several years. Assuming that we are currently in a cycle of sustained decline, we predict that in the next year or so, the number of bookings will rise again.

In the adult system, we have yet to find a strong relationship between increases and decreases in bookings and the ADP. It will be interesting to study this relationship in the juvenile detention system in the years to come.

Summary of Juveniles Booked per Month				
1999	2000	2001		
11,067	10,641	10,137		

2002 Summary of Monthly Bookings				
Q1	Q2			Average
9,906	10,209			10,058

Distribution of Charge in Juvenile Halls

Although the percentage of juveniles detained in Juvenile Halls charged with felonies was 67% in 1999 (the first year of the Juvenile Detention Survey), since then the percentage has hovered consistently around 64%. Until further data are available, and based upon the stability of this percentage, we will assume that for the foreseeable future, the majority of juvenile detainees will have felony charges and that they will constitute about 64% of the Juvenile Hall ADP.

Summary of Felony Charges in Juvenile Halls
